Jump Rope for Heart

No doubt the children have advised parents of the fabulous time they had yesterday when Euchareena joined us to learn about the food, drinks, sleep and exercise that our bodies need. Kane Radford from the heart foundation talked to the students and then proceeded to show them different skipping moves to make our hearts healthy.

The heart foundation recommends that children move vigorously for 60 minutes every day, get plenty of sleep, drink plenty of water and follow a diet that has mainly unprocessed foods in it.

The skipping program will be integrated into the Premier's Sport Challenge to be held over the next 10 weeks. The challenge will be results from a culmination of exercise the children do at home, school and outside of school sport.
